### **About the Committee**

**Overview and Mission:** The Faculty Mentor Program (FMP) was developed to support and facilitate the transition of new athletic training faculty members into the faculty culture as they navigate their development as new faculty members in higher education. The primary mission of the FMP is to provide a supportive external environment for athletic training faculty members as they develop as a teacher, researcher, and professional while seeking tenure and promotion.

**Primary Goals and Objectives:** The primary objective of the FMP is to pair experienced athletic training researchers and faculty members with less experienced faculty members based on their mutual interest to facilitate a mentoring relationship that will last beyond the formal FMP and support young faculty members as they navigate the challenges of working in higher education.
