ABOUT THE NATA RESEARCH & EDUCATION FOUNDATION

MISSION: To support and advance the athletic training profession through research and education.

The NATA Research & Education Foundation - the fundraising arm of the National Athletic Trainers' Association - was established in 1991 as a 501(c) 3 tax exempt organization.

Without research, the profession will not continue to advance. The NATA Foundation's work benefits every athletic trainer and every company associated with the profession, as well as the physically active community at-large. The NATA Foundation leadership is dedicated to continuing this good work and elevating the status of the profession.

Why Give?

The NATA Research & Education Foundation is the only 501(c) 3 non-profit dedicated to advancing the athletic training profession through research and education.

PROGRAMS

Free Communications

The Free Communications program provides a forum for researchers and clinicians to disseminate research and clinical case studies. Those abstracts selected by the Committee are published in the Supplement to the Journal of Athletic Training and are presented at the NATA Convention via oral, poster or rapid fire presentation.

Research Mentor Program

The NATA Foundation Research Mentor Program pairs promising investigators with established researchers who will provide guidance, advice and assistance in navigating both the research and the grant writing processes. The goal is to form a lasting relationship to help the young investigator build a solid knowledge base and acquire an understanding of the balance necessary to becoming a successful researcher.
